

(https://profile.intra.42.fr)

Remember that the quality of the defenses, hence the quality of the of the school on the labor market depends on you. The remote defences during the Covid crisis allows more flexibility so you can progress into your curriculum, but also brings more risks of cheat, injustice, laziness, that will harm everyone's skills development. We do count on your maturity and wisdom during these remote defenses for the benefits of the entire community.

SCALE FOR PROJECT PISCINE SWIFT IOS (/PROJECTS/42CURSUS-PISCINE-SWIFT-IOS) / RUSH 00 (/PROJECTS/42CURSUS-PISCINE-SWIFT- IOS-RUSH-00)

You should evaluate 2 students in this team

Git repository

`git@vogosphere.msk.21-school.ru:vogosphere/intra-uuid-71632ee5-`

Introduction

For the smooth running of this evaluation, please respect the following rules:

- Remain polite, kind, respectful and constructive whatever happens during this conversation. It's a matter of confidence between you and the 42 community.
- Highlight the potential problems you 've had with the work you're presented to the person or the group you're grading, and take the time to talk about and discuss those issues.
- Accept the fact that the exam subject or required functions might lead to different interpretations. Listen to your discussion partner's perspective with an open mind (are they right or wrong ?) and grade them as fairly as possible.
42's teaching methods can make sense only if peer-evaluation is taken seriously.

Guidelines

- You must only evaluate what you will find in the student's or group's GiT repository.
- Take the time to check that the GiT repository matches the student or group and the project.
- Double check that no malicious alias was used to mislead you and make you grade something different from the official repository content.
- If a script supposed to help evaluate the exam is supplied by either side, the other side will have to strictly check it to avoid nasty surprises.
- If the evaluating student has not yet taken this project, they will have to read the exam subject in its entirety before starting the evaluation.
- Use the flags available on this grading system to signal an empty or non-functional project, a norm flaw, cheating, etc. In that case, evaluation stops and final grade is 0 (or -42 if it's a cheating problem). However, if it's not a cheating problem, you are invited to keep talking about the work that has been done (or not done, as a matter of fact) in order to identify the issues that lead to this stalemate and avoid it next time.

Attachments

 subject.pdf (<https://cdn.intra.42.fr/pdf/pdf/15710/en.subject.pdf>)

Part 1

Login

- Can you log-in with your login and password?
- Does the login fail if you enter the wrong password?

 Yes

 No

Log-out

- Can you log-out and log back in with another login and password?

 Yes

 No

Events

- Can you see all the coming events of your campus in the 42 syllabus?

(Compare the results with the intranet's calendar)

- Can you see the name, surname, login picture and level in each syllabus of the logged-in student?

☒ Yes

☐ No

Event details

- All the details for each event are visible as required in the subject?

- Can you list by category or filter by campus and/or syllabus?

☒ Yes

☐ No

Part 2

Registration

- Can you register to the event?

- Is the button unavailable when an event is full or when it's not destined to the user (different campus and/or syllabus)?

☒ Yes

☐ No

Unregistration

- Can you unregister from an event?

- Is the button unavailable when the `prohibitory of cancellation` is past ?
(You can ask to take a look at the code if you can't test the functionality with the current events)

☒ Yes

☐ No

Usability and graphic design

- Is the application handy?

- Is it graphically pleasant?

Rate it from 0 (failed) through 5 (excellent)

5

Ratings

Don't forget to check the flag corresponding to the defense

✓ Ok

★ Outstanding project

Empty work

Cheat

Crash

Forbidden function
